

P³ With Concierge

Perfecting Per-Pay-Period Administration Management

To the Power of P³!

At Concierge, our revolutionary per-pay period administration services are designed to lessen the administrative burden on HR departments and improve employees' benefits experience. **P³ is set to redefine the way benefits are managed.**

True Weekly Administration

Help clients say goodbye to tedious in-house weekly payroll administration needs. Our dedicated team ensures our services align seamlessly with per-pay period cycles, including weekly and monthly ones.

No Gaps in Coverage

If an employee is away from work for up to 5 consecutive weeks due to health reasons, they can still submit a claim. Concierge will review the claim, and if approved, pay it, even though no premium is received.

Potential Advantages

When coupled with a Section 125 Plan, P³ can empower employers to offer benefits that may have been previously unaffordable.

It's a win-win for both the employee (new benefits they didn't have before) and the employer (something to assist in attracting and retaining employees)!

With Concierge turn-key service, we do most of the work so you can remain focused on your own business.
